Mission

Purposeful innovation with aggressive implementation. We think it, we make it, we bring it to market. No limits, no excuses. That means making good whiskey and doing the right thing. Every day.

Vision

To be industry leaders and trendsetters. To be the most compelling and interesting spirits company in the world. To be an active contributor and positive force in both the economic and social health of our local community.

Story

In the summer of 2013, INC Magazine wrote a feature story about a new company called Cleveland Whiskey. It was an innovation focused; advanced technology manufacturing company that was about to disrupt an industry steeped in tradition. An industry dominated by billion-dollar conglomerates and companies that have not changed their methods in generations. Whiskey “traditionalists” had already called us heretics. Today we have distribution in 16 States, we reached profitability in 2019 which has continued into 2020 (despite Covid-19 challenges). We are currently in the early phases of a major production expansion, new facility, and accelerated revenue growth.

Core Values

We are “innovators”. We are curious about the world we live in. We are passionate about our work and producing quality products. We are “makers” and doers. We believe in being a positive influence and productive force in our community.

Products

Ten whiskey variations (two new products launched in 2020) along with short run distillery only specialties and custom barrel products. Awarded eighty-two medals and awards at competitions around the world, including thirty-four Gold, Double Gold and “Best-Of” awards. Named Whiskey distillery Innovator of the Year” at the 2016 Berlin International Spirits Competition, “Bourbon Whiskey Distillery of the Year” at the 2017 Asia International Spirits Competition. We won Gold at the 2019 New York International Spirits Competition and both Platinum and a Consumer’s Choice award at the SIP International Spirits Competition in the same year. In 2020 we’ve added eight additional awards including four new Gold Medals.
