PROBLEMS

✓ App Fatigue

Mobile users need too many different apps for the daily tasks they want to accomplish

✓ Most Messaging Apps Haven't Evolved

Few incorporate vital financial and telecom services alongside communication features

✓ Lack of Monetization Opportunities

Most businesses aren't monetizing from their customers' use of OTT messaging apps

TOO MANY APPS

SOLUTIONS: VODI – Value On Demand Instantly

Vodi is the only application that offers:

- ✓ Mobile shopping and communication with **conversational commerce** & **suggestive search**

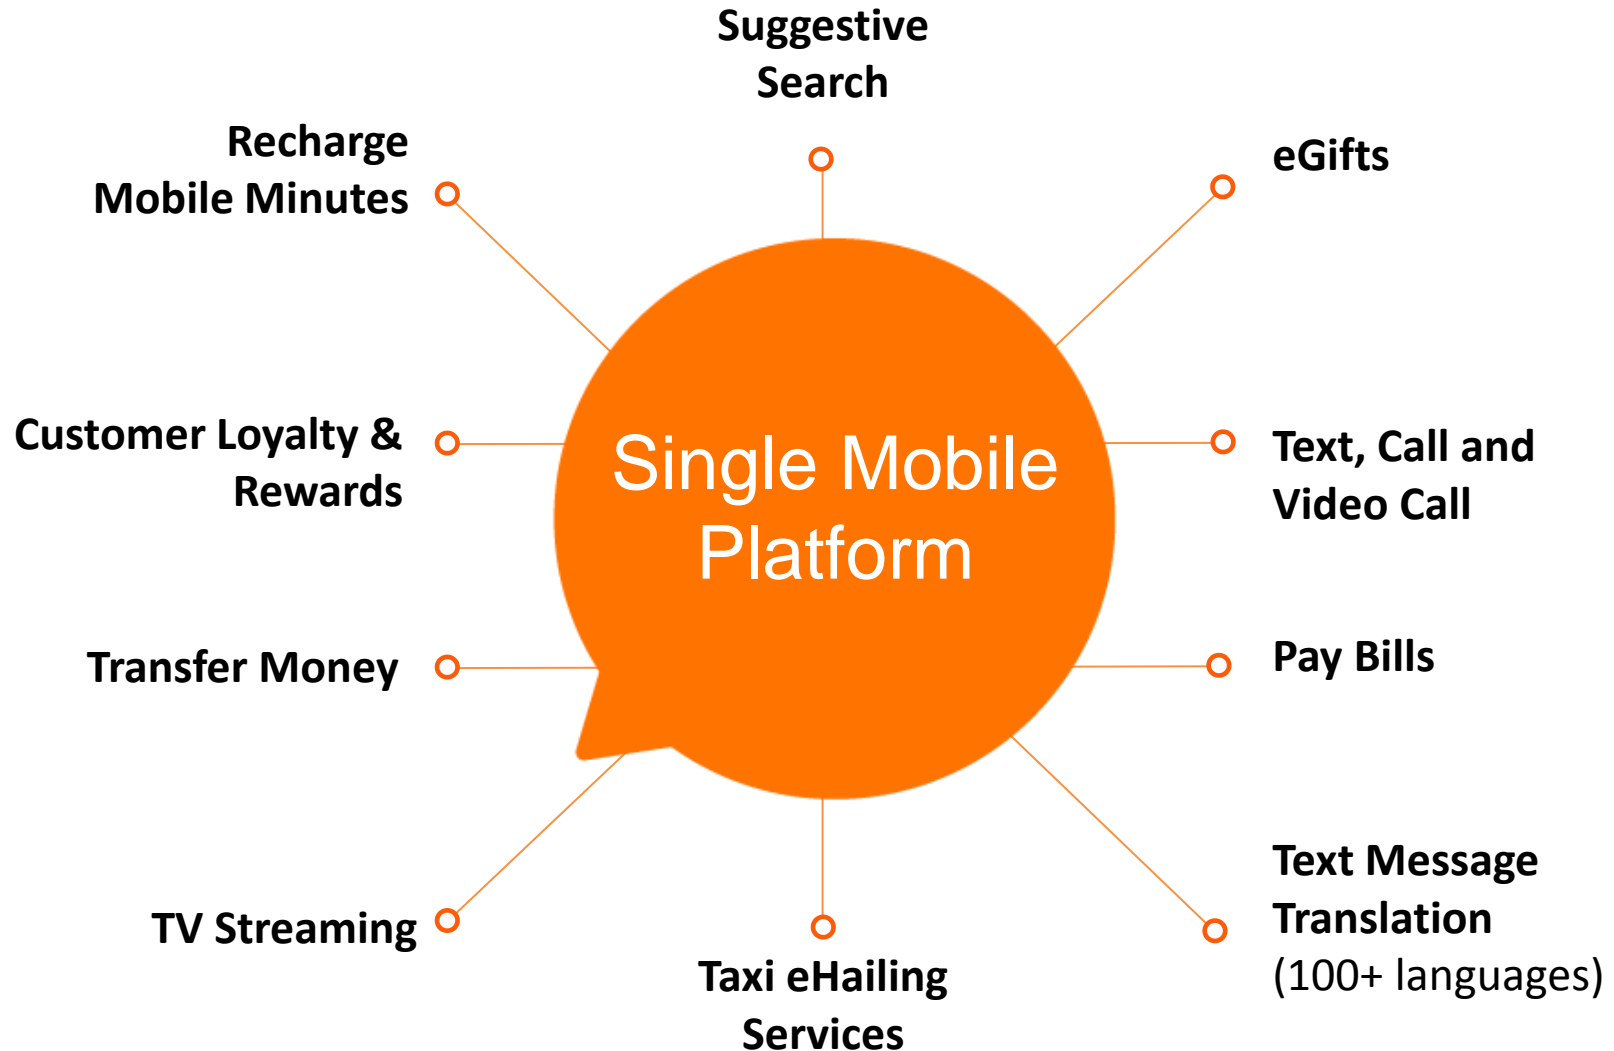

- ✓ **Global financial/telecom services** including instant eGift cards and mobile phone recharging (with money transfer and bill payment coming soon)

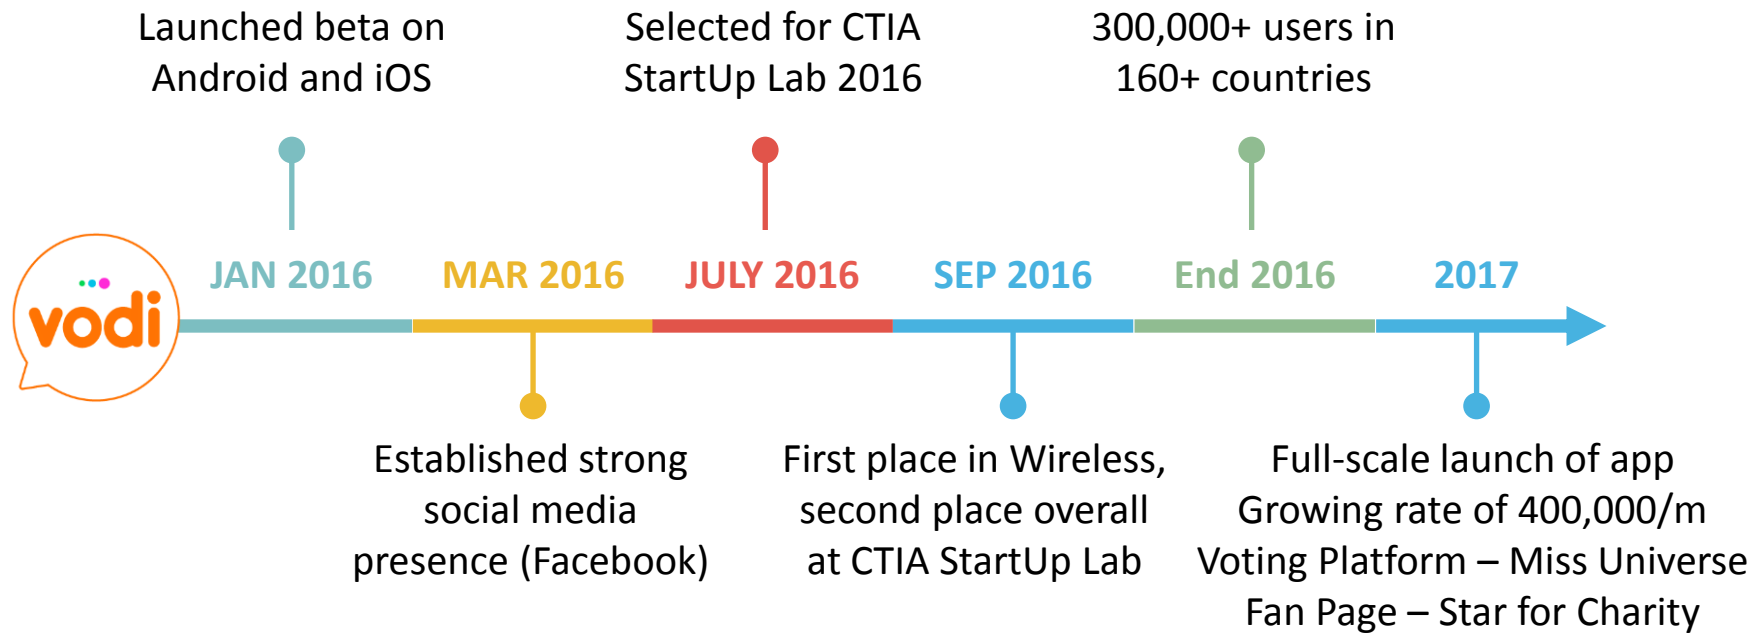

- ✓ A **unique B2B model** for global partnerships – mobile carriers, online businesses, TV networks, OEMs, etc. – that unlocks **monetization** on a worldwide scale
